

Container Door & Window Shutter Range

Our container doors and anti-vandal window shutters are specially designs for the container conversion industry and modular building industry.

Not only secure but easy to install

Our container doors have been designed for this industry, making it different to our other ranges as they are insulated with PU Foam, have a fully welded construction and sealed joints. Wet sprayed with a grey primer finish, ready for final coat on-site.

Not only are these doors great for container conversions, temporary buildings and more, they include our HOOPLY™ multi point locking system and an increased tolerance that has been factored in to allow for movement in the container when in transit, or for when it is positioned on an uneven surface.

Secure your windows & glazing

Our container window shutters are a great way to protect against windows or hatches against attacks. Designed for shipping containers or modular buildings, they are Best installed alongside our anti-vandal container door.

These shutters include 4 internal flush bolts that are simple but effective in securing the door leaves within the frame.

We also offer an easy to install double glazed uPVC unit and Aluminium single/double glazed units to fit with it.

Louvre Panels

Offering up to 50% additional airflow, our louvres are a perfect for use on plant rooms, boiler rooms, bin stores & other applications needing a combination of airflow, ventilation & security.

Ranging in sizes, from as small as 225mm x 225mm to 479mm x 1546mm with a choice of position, create the perfect door to suit your property.

These panels are available to be purchased with a door or separately. When purchasing your louvred panel with a door the panels are powder coated to colour match.

Louvre Panel Sizes

327mm x 327mm

479mm x 479mm

632mm x 632mm

479mm x 1546mm

225mm x 1546mm

Additional Options

Fly Mesh

This is a great additional option you can add onto your louvred doors which ensures flying insects or debris does not enter your property through your louvre panel.

Handles

We are the UK's only approved supplier of HOOPLY™ handles, which are compatible with our range of steel security doors, but also commonly used on container doors.

From standard lever handles, to stainless steel security models, HOOPLY™ handles provide unparalleled security at unbeatable value.

We also have blanking plate options that are made in-house which are a great alternative if you only require an interior handle.

The Borg Code Lock option is ideal when you need to control and restrict access to certain individuals.

* Blanking plates are supplied white as standard, or if your door is being powder coated it can be coloured to match

Upgrade your doors to the best security

We offer security upgrades on our doors to allow you to increase security, with a budget in mind. Our security upgrade options include some different components at the main lock and handle of the door.

UAP Kinetica
3* Kitemarked Cylinder

Cast Cylinder Covers

Our high security stainless steel cylinder cover ensures the cylinder is protected and it has been designed to fit perfectly with our HOOPLY™ handle range.

Stainless Steel Handles

Our security upgrade handles are made from heavy duty stainless steel material making them robust & long lasting. In addition, these genuine HOOPLY™ handles feature an anti drill euro cylinder cover.

3* Kitemark Cylinder

Our 3* Kitemark Cylinder has enhanced security features and has anti tilt technology blocking access to the bolt during an attack.

Anti-Snap

Anti-Drill

Anti-Bump

Anti-Pick

Additional Upgrades

Drop Bar Kit

For additional security you can add a drop-bar kit. This kit consists of 4-8 brackets (colour matched to your door), 2 drop bars (Traffic Yellow) and fixings. Easy to fit, they are suitable for both inward or outward opening doors.

Security Trim

The security trim will protect your property as well as give it a professional finished look. This kit is fast and easy to fit, protects your fixings from attack and eliminates the risk of tampering.

Tower Bolt

Our heavy duty tower bolt has been designed for use on fire escape doors to complement the EXIDOR™ panic furniture. These add an extra level of security to your door by bolting into the frame.
